

## TCM Forklift Part

TCM Forklift Parts - In the global trade of material handling, forklifts play a major part for transporting industrial goods. Originally innovated as industrial vehicles during the 1930s in the United States of America, forklifts gained popularity following World War II in the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these machines spread worldwide.

Initially established as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. prior to becoming recognized as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's very first lift truck. Throughout the years, TCM lift trucks have become a global leader in forklift manufacturing and have built a solid reputation with the trade. TCM started building forklift manufacturing locations outside of Japan during the 1980s and is now engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

With more than 50 years of accumulated technology and expertise, TCM has been proudly manufacturing various models of industrial trucks, making their models recognizable all over the world. With a strong and energetic employees, TCM has been able to constantly work towards becoming a future leading material handling company.
