

## Pulp Clamp

Pulp Clamps - There are a lot of different lift truck attachments which could be used to make lift trucks rather more useful. Snowplow attachments can be mounted onto the front of a lift truck. A scoop bucket can be useful whenever the task requires moving gravel, snow, sand, or soil. A double block handler allows the person operating the forklift to pick up two loads and then pile them side-by-side. A lot of of those accessories are considered ideal for light to medium duty work.

One of the lift truck accessories, known as a package lift clamp, permits for the moving and lifting of heavier pallets. Pallet crane forks are even used in order to transfer and carry pallets by utilizing an overhead crane. A drum clamp attachment is useful for transferring very heavy drums from place to place with out having to utilize a pallet. Lift truck mounted hoppers allow material to be moved and dumped with out having to do it manually. These hoppers when the bumper is released are self dumping.

There are also accessories available that could transform the forklift right into a commercial broom or mop. Such accessories are ideal for cleaning boat docks, warehouse floors and parking lots. Forklift mounted platforms are available geared up with dual entry doors and could be connected so as to move personnel from one site to another. The mounted platform accessory is ideal for reaching areas which can be hard to access, especially if you have goods or materials stored in out of the way places or really up high.

It is a handy choice to install forklift attachments which can immediately transform a lift truck into a mobile crane unit. This particular equipment is extremely helpful when it comes to transferring loads that may be uneven or awkward. This attachment could either be telescopic, mounted on the carriage itself, or be fixed or forklift mounted.
