

Spreader Bar for Forklifts

Forklift Spreader Bars - Proudly operating since the year 1974, ELME Spreader AB is the largest independent spreader business around the globe. They have been a devoted maker of spreaders for numerous applications like for instance the trailers, handling of containers and swap bodies.

ELME presently employs over a hundred and twenty five personnel with all engineering is done in-house by means of making use of all the most up-to-date CAD systems and FEM tools. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers around the globe.

The ELME product collection offers spreaders for various trailer and container handling operations. Some of their inventory comprise: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks plus a wide array of attachments.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they made over 1150 spreaders by way of using high quality components in order to guarantee dependability and top standards while offering competitive prices. Major features of ELME consist of design simplicity, market feedback and ground-breaking modular spreader concept.
