

## Meritor Part

Meritor Parts - Meritor is a premier global dealer which is proudly built on a 100 year tradition of service and quality. They specialize in several modules, integrated systems and parts to original equipment makers and the aftermarket for the transportation and industrial sectors.

Meritor values the needs of all their clients to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their global operations. Meritor begins with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over eleven thousand two hundred individuals, Meritor encourages collaboration and innovation amongst a team of experienced experts.

Meritor strongly believes in just employing future focused staff. These top-caliber people can rapidly adapt to changing environments and freely exhibit the level of performance and commitment considered necessary in order to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor offers all of their employees different opportunities for professional and personal growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises drivelines, axles, braking and suspension systems intended for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is even responsible for supporting the needs of all their global engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group who is devoted to ensuring optimum growth at their aftermarket distribution facilities and production plant which are located on 5 continents and in 19 countries.

They have their supplier network that is specially located to support the development of the business. Every regional team has internationally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven method to decision making in each and every aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is also included transactional Green Belts who use Six Sigma tools to business techniques and apply lean techniques.
