

## Clark Forklift Part

Clark Forklift Parts - At present, there are over 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 in commission in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 particular parts fabricated for 20 distinctive models of lift trucks and automated equipment. Your regional Clark Dealer is your complete source for availability of all your parts needs provided by Clark Totalift.

Clark features a exceptional Parts Supply team. The items warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to supply the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving output and benefiting performance.

Clark Totalift has a very impressive international support network. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the materials handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering protection features such as the worker restraint system. This exceptional commitment to safety is at this time a standard feature on every lift truck.

Clark's relentless goal to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift maker across the globe to be certified with the internationally approved quality standard ISO 9001 for all of their production plants. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has selected the particularly economical and advantageous structure of "Lean Production" for its assembly plants and application of resources. This system was established to acknowledge the most effective method of production plant stewardship and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing expenses. The new value engineering agenda combines innovative product improvement and provides superior consumer support and service within the industry.
